Workshop Details

Workshops will be conducted on every Saturday to enrich the students' skills. Students should attend the sessions without fail for constant skill development. The workshop details are given below:

Grade	Topic	Description	Duration
III	Pivot Stick Animator	An application where children will be introduced to the concept of animation and an interface where they can make their own animations.	6-8 hrs
IV&V	Microsoft Publisher	Microsoft Publisher is a desktop publishing application from Microsoft, where students can learn how to design their own greeting cards, invitations, certificates and many more.	3hrs
VI-VIII	Paper Mache	Paper Mache is an interesting skill based activity which is a part of the school education. This activity can be carried out using recycled materials like waste paper, newspapers etc., Paper Mache can be used for decorative and utilitarian purposes.	10-12 hrs

Note:

The workshops are not mandatory, but participation will assist the students in developing their skills.
