

Circular No 81/2021-22

21st September 2021

Dear Parent,

The National Education Policy 2020 envisions a transformational shift in education. The goal is to nurture in our students creativity, out-of-box thinking, conceptual understanding and learning how to learn.

In an effort towards this objective, CBSE and IIT Gandhinagar are collaborating to bring forth the Eklavya Series. The focus of the series will be to clarify NEP and showcase how to effectively implement NEP 2020 across the schools.

Eklavya is an interactive online educational program that will contain:

- ❖ Numerous hands-on activities, projects, models which help in conceptual understanding of various topics.
- ❖ Thought provoking questions, assignments which promote out-of-box creative thinking (Why Neeraj Chopra threw javelin at 36 degree).
- ❖ Inspiring DIY (do it yourself) project videos using local material which relate the curriculum to life.

The content will be of varying levels and will cover topics in Science and Mathematics Curriculum of classes VI-X. Therefore, students from these grades should avail this opportunity to register and participate for conceptual clarity and joyful learning.

Programme	3030 Eklavya (Registrations opens from 10th Sep, 2021)
Time	Live every Sunday 4-5 pm First Episode (26th Sep, 2021) : Neeraj Chopra and Newton's Laws of motion
