

Dear Parent,

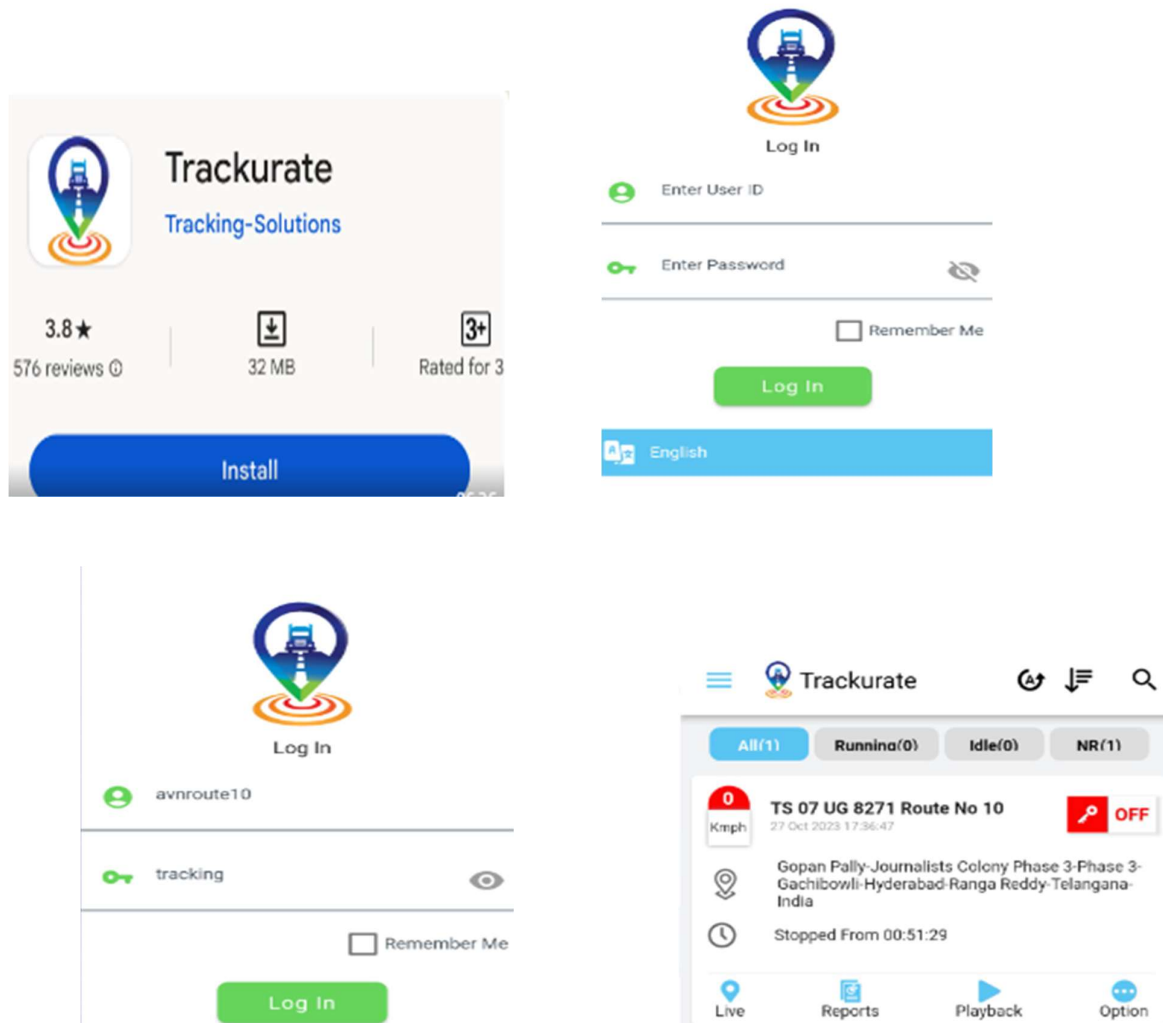

The school is cognizant of the requests received from parents regarding Bus tracking facility in all the buses operated by the school. GPS devices have been placed in all the buses, and these devices will stream their real time location on to a map.

All the parents are requested to download the bus tracking app **from Iphone/Play Store/ App Store-Trackurate**

After installing the app, use the login /username and password to track the bus as per your ward's route number.

After clicking the login mutton click on **ON mode and live tracking** to track the bus.

The steps and the login details are given below for your reference.
